Brand Wall Clock

Instructions No. 2633

Difficulty: Advanced

Working time: 4 Hours

Tik tok,... here is a great, **individual clock**. With numbers burned in with a **branding pen** and accents in your desired colours, the clock really makes a statement and integrates beautifully into your room concept. So you always have the time in view!

This is how the clock is designed:

Transfer the **templates** (A + B) onto the plate using blue paper. Now you can easily burn in the motifs with the branding pen. First turn on your branding pen and wait approx. 5 minutes until it is completely heated.

Paint a thin stripe around the clock in the **colour** of your choice. In our example, we chose pastel olive green. Next to the stripe, draw a thin golden line with a **paint marker**. In addition, draw a circle in the centre in the desired craft colour and outline the edge with gold as well.

Finally, attach the clockwork and the **clock hands**.
