Pop-up wedding card

Instructions No. 943

Difficulty: Challenging

Working time: 10 Minutes

The most beautiful moment in a couple's life is their **wedding.** Make your **wedding present** unique and create an individual card that will bring back memories even years later. Be inspired by our **beautiful, romantic wedding card in** modern pop-up **style**.

And it's as simple as that:
Make a Stencil from the template and cut the pink Coloured paper . Cut out the sections of the path and the card flap from the embossed cardboard. The path functions as the text field of the map. Print out the bridal couple and paint it in colour, stick it to Coloured paper and cut it out. Now glue the text field from embossed cardboard to the lower part of the bridal couple and this again to the lower edge of the card with a piece of chiffon ribbon in between, which will be part of the closure. Cut the slit at the mark with the scalpel and thread the bridal couple's tab through. Fasten it on the other side with tape-Ribbon. Now glue the card cover made of embossed cardboard on the top side and work in the 2nd chiffon tape. Punch out flowers from the Coloured paper with the Craft Punch and decorate the card with them. Outline these with the Edding and paint on the leaf veins. To give the card more depth, wipe over the edges with the Ink Pads . Additionally you need some Coloured pencils.
