

Star foil houses

Instructions No. 2601

🔪🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 4 Hours

Make this beautiful **winter village**. The **star foil** gives the **illuminated houses** a great effect. The light decoration gives a pleasant light and radiates a nice atmosphere in the dark season.

Make the beautiful winter village as follows:

Print out the **templates** (A,B,C,D), cut them out and transfer them to the **watercolour paper** with a pencil. Paint as desired. Cut out after drying.

Cut the **star foil** to size. In our example, we cut them to 11 cm high and 25 cm long. Glue them together with hot glue.

Stick the doors and windows onto the foil with hot glue. Place the **fairy lights** inside the house.

Cut out the roof from the **felt** (template E) and glue it together. Place it on the house. Do not glue it on so that the fairy lights can be operated.

Spray the **cones** with metal leaf effect spray. Place the houses with **moss** and cones on the **bark discs** and decorate.
