Lantern Polar Bear

Instructions No. 2294

Difficulty: Beginner

Working time: 2 Hours

Our great **polar bear lantern** is very easy to make and requires very little effort. Simply download our **free templates** and you're ready to go. The children's eyes will light up.

The cute polar bear is so easy to make:

First print out our **free template**. Transfer the polar bear templates to the **photo card** and cut them out.

Add light reflections to the mouth and nose with gel pens.

Cut two strips of **felt** approx. 5.5 cm wide. (along the short side of the felt plate) Cut fringes on one side of the felt strip.

Also transfer the pattern for the inside of the ear onto felt and cut this out.

Now you can put the lantern together:

For this, glue **transparent paper** into the openings of the **lantern blank**, as well as into the open "face" parts of the clay cardboard.

Now glue all the parts together.

Glue two **poster hangers** to the top of the lantern to hang it up.

Shorten the **lantern hanger** a little, bend it over and hang the lantern on the poster hangers.

You can also paint the lantern stick with **craft paint** to embellish it and wrap the handle piece with the **jute cord**.
