Angel clay bowl

Instructions No. 2343

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Many decorative and also practical things can be formed from soft clay, such as this pretty bowl in the shape of an angel. The simple, small angel is a wonderful Christmas decoration and can also be decorated with a tea light.

This is how the little angel is made:

1. Knead the soft clay well for approx. 15 minutes and roll out to a thickness of approx. 1 cm.

2. Print out the free motif template, cut it to size and place it on the rolled-out clay. Use a bamboo skewer or other pointed object to carve the shape into the clay.

3. Use a scalpel to carefully cut out the angel.

4. Smooth out any uneven areas and the edges with a little water.

5. Press the tealight glass lightly into the centre to form a recess for the glass.

6. It is helpful to place objects under the wings, the dress and the halo so that they keep their shape after the drying time.

7. Allow the angel to dry for about 48 hours.

8. Finally, paint the edges of the bowl and the tealight jar in white from the outside, and after drying, paint with the shade nacre.

Must Have

Soft clay, 1.5 kg, Nature

Air-drying
Weight: 1.5 kg

5,89 € (1 kg = 3,93 €)
