Anleitung: Kreativ-Set Pompon Schafe

Instructions No. 1273

Difficulty: Beginner

Working time: 15 Minutes

Make funny sheep from the **VBS Creative set "Pompon sheep".** This set already contains all materials for a total of 8 sheep in 4 different sizes (4 black and 4 white).

And it is as simple as that:

Set contents

- Prym pompon set
- 4 x wooden feet with hole
- 12 x Wooden hemispheres without drilling
- 50 g wool Lisa, white
-50 g Lisa wool, black
- 100 x Wobbly eyes
- 1 x Felt sheet 20x30 cm, white
- 1 x Felt sheet 20x30 cm, black

How do I make the sheep?

Put two pompon pieces on top of each other and wrap them with the white or black wool. Do the same with the other two pompon pieces. Put the two fully wrapped pompon parts together, cut the wool open and knot the safety thread between the templates around it. Then carefully remove the stencils again. Adjust the pompon and if necessary trim it a bit with scissors. Make the other sizes in the same way and then the bodies of the sheep are already finished.

From the black and white Felt sheet , the heads and the bow are now cut out using the template. Next, the Wobbly eyes are glued onto the sheep's heads. Finally the wooden feet have to be fixed and a funny, fluffy sheep is ready.

Extra handicraft tip:
The finished sheep can be decorated with small scatter pieces, bows or buttons further
