Anleitung: Mr. Smith's Workshop

Instructions No. 1237

In this guide we show you how to quickly and easily **design** a wooden frame and drawer box for the **personal workstation of creative men**

And that's how easy you can design the drawer box

First, drill small holes in the drawers so that the label holders can be placed there later. Next, prime the drawer box with VBS Hobby Color in Ochre. As soon as the primer is dry, take a Paint sponge and wipe the surfaces and edges in some places with Grey Brown to get the desired used effect. The next step is to cut out the desired paper motifs in the size of the drawer front and then glue them on. Now fix the label holders in the pre-drilled holes and glue them additionally with a few drops of adhesive. Finally you glue small screws, possibly tools like hand drills, to the drawer box as decoration - ready.

And it is so easy to decorate the wooden frame

Just like the drawer box, the wooden frame is first decorated with VBS Hobby Color Ochre primed and then achieved the used look with the wiping technique in Grey Brown . Cut out small elements from the paper block and stick them together with selected charms on the wooden frame - the arrangement is left to your creativity. Now cut

out the picture section "Man at Work" and fix it in the picture frame. Then attach the eyelets to the back of the wooden frame and pull the paracord cord through them - done.

Must Have

VBS Drawer box with 4 drawers

Number of parts: 5
Length: 31 cm
Depth: 8 cm
Width: 8 cm
Height: 8 cm
Material: Pine wood

9,85 €
