

Anleitung Schneeflocken Teelicht mit Hirsch

Instructions No. 1262

The instructions show you how to quickly create a magical winter table decoration with only with little effort. Deer and the snowflake tea light can be quickly painted and decorated even by inexperienced people

And it is as simple as that:

What do I need for making snow decoration with snowflakes-Tealight holders?

For this decoration idea you need besides the Tealight holders "snowflake" and the decorative standing figure "deer" you need a Glass for tea lights, chalky paint in white, a decorative snow liner, frost-effect paint, something narrow Satin ribbon and small red-white Jingles.

How do I make the snowflake decoration?

The MDF Tealight holders snowflake as well as the deer figure are first primed with chalky color white. While the two objects are drying, the Glass for tea lights can be satinized with frost effect paint: simply dab the surface of the glass with a small sponge. With a hot air device everything is dried very fast.

Now quickly pull the outer edges of the snowflake with the Deco-Snow Liner, also apply Decorative snow to the upper outer edge of the tea light glass. After everything has dried, only is pulled two more small Jingles on narrow Satin ribbon . The Decorative ribbons is now tied around the neck and around the Glass for tea lights to a loop - ready is the new eye-catcher on the table!
