

Beaded eggs to hang

Instructions No. 477

🔪🔪🔪 Difficulty: Advanced

🕒 Working time: 20 Minutes

Pearl eggs to hang up are a particularly fine Easter decoration in spring. The decorative pendants can be produced quickly.

Here's how it works:

Basis for each "Pearl Egg" is a wire form "star".

Pearls are threaded onto each strand of the wire form in the following order:

5x rocaille beads, 1x 4 mm acrylic bead, 1x 6 mm acrylic bead, 1x 4 mm acrylic bead, 5x rocaille beads, etc.

The last piece of the strand is bent into an eyelet.

Now cut off a piece of from jewelry wire, thread it through all eyelets, pull it together and twist the wire at the end. Attention: Before twisting together, insert the egg. The bend around the egg is now automatic.

Decorate with chiffon ribbon

As a decorative hanging ribbon, tie a chiffon ribbon of matching colour to the star cross, then decorate with another piece of chiffon ribbon and finally with a decorative bow
