Beautiful things for Mother's Day

Instructions No. 1747

Difficulty: Beginner

Mothers are especially happy about homemade **gifts.** This shows that the giver has given a lot of thought and invested his time to **create** something **beautiful**
How about a great card, for example, in which a small gift is still hidden or you give beautiful heart bowls with flower arrangements?

Great Mother's Day card

Cut two 12 cm long strips from a **leather strap**. Take a Ribbon double and push the loop a little bit through the charms connector**.** Push the two leather strap ends completely through the loop and tighten them. Do the same with the other Ribbon and the other side of the charms connector. The ends of the leather straps with **Jewellery glue** the bottom of the card is also provided with Clear Stamps and is glued into one end of the **closing set**. Let everything dry well.

Flip the **card** open. Cut two small semicircles in the middle of the lower side, right and left with the **cutter knife**. Cut the white **Craft cardboard sheet** cut to size so that the rectangle can be inserted into the incisions. Now write a nice saying with **handlettering**, in our example we have chosen "Thank you, for your infinite patience". Then glue the cut rectangle into the kraft paper card. Push the ends of the bracelet through the incisions of the card and fix Adhesive tape it with something on the backside

On the upper part as well as on the front of the card we have stamped a **floral wreath with Clear Stamps** and coloured it with **coloured pencils**. Here we also wrote a text in the handlettering technique. Another idea is to stick on photos and write a little anecdote. Everything that you and your mother like is of course allowed.

The bottom side of the card is also decorated with **Clear Stamps**.

Flower arrangements in heart bowls

Cut **Flower arrangement foam** so you can put it in the **heart pans**. For visual enhancement, glue some moss **onto it with** the **hot glue gun.** Shorten the flower stems **to about** 2cm with the help of a pair of pincers and stick it decoratively into the flower bowl. Now Flower arrangement foam. cut the boxwood **and** rosemary into **shape** and stick them **around** the flowers.

Tip: You can also add hearts in the form Embellishment of hearts **with a** little white **Handicraft paint** and red **Watercolour** ..on a coat of paint. This gives a nice effect. After drying, stick to the plants with hot glue.

Must Have

double cards with envelopes "Kraft paper", DIN A6, 50 pieces

Number of parts: 100
Lignin-free
Acid-free
Grammage: 280 g/m²
Content: 50 pieces
DIN format A6
