Christmas balls become a fascinating light decoration in this idea. Let this idea inspire you to create your own ball light decorations - ideal also as a gift idea!

You will need **Christmas balls** in different sizes for this idea. Select a part of the balls and spray them with color spray in harmonious matching colors (for this idea we have used three shades of blue). The baubles spray best when held on a bamboo skewer while doing this.

Extra tip: When using paint sprays, hold the balls or your object to be sprayed in a cardboard box. This will protect your surroundings from unwanted paint stains. Additionally, it is recommended to wear protective gloves while spraying.

Assemble the transparent gift boxes. Stick **glitter paper** on the bottoms and place them in the boxes.

Fill the boxes with the different colored and different sized Christmas balls and with a **string of lights**. Mix the sizes and colors of the baubles until you get a great overall look. Leave the battery compartment with the switch of the light chain outside the packaging.

Close the boxes and decorate them with a gift bow.

You want to arrange the boxes on a dresser or windowsill? They look especially good when arranged on a surface together with other Christmas balls and small pompoms.
