

# Cappuccino-Tassen als Wand-Deko

Instructions No. 770

Difficulty: Beginner 

Working time: 30 Minutes

The large cups of white porcelain look almost like a picture when they are so imaginatively designed. The decoration of Straw, daisies and chickens is deliberately timeless.

## And this is how it works

Clean cup and saucer thoroughly with glass cleaner and/or scouring milk.

Stick the cup with Effect Glue on the saucer and let it dry for at least 24 hours.

Important: The Effect Glue has to be Spatula applied with a sufficiently thick layer.

Place the cups with the handle facing upwards.

Put half Bale of straw a chicken in each cup and stick a chicken next to it.

Remove a few flowers from pick and put aside. Cut the wire very short and stick Bale of straw the pick behind it

For the border of the saucer, braid a few strands of natural raffia into a long braid, knot them at the end and stick them around the edge of the saucer with hot glue. Cut off excess material

Satin ribbon Decorate the rim with single flowers and small bows of yellow.

Finally Satin ribbon knot it to the handle for hanging.

Title: **Effect Glue**

With this super strong glue I can put together almost anything that has to hold very well, even and Polystyrene glass. It is important that I apply the gel thick enough with one Spatula and let it dry well.

## **This idea is timelessly beautiful!**
