

Christmas candle holders made from wooden bobbins and balls

Instructions No. 1377

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 40 Minutes

These beautiful Christmas **candlesticks** can be individually and quickly made by yourself. You need only some Wooden balls, -coils and wheels, some glue and paint. ideal as a gift or for your own Christmas decoration!

The candle holders are suitable for **tea lights** or for **candles with Ø approx. 4 cm**.

Here's how it's done

For each candlestick a wooden wheel is **needed as a stand**. Remove the rubber tyres from the wooden wheels you need. An alternative for the wooden wheels is Wooden discs with a central hole (Ø approx. 6 - 7

cm).

Depending on your personal taste you can combine Wooden balls and spools for your candleholders. Before painting, place the balls and bobbins in front of you to get an idea of the height of the candlesticks.

Paint balls, spools and wooden wheels with Chalky paint. Once the paint is dry, thread everything on wooden sticks and glue the parts together with Effekt Glue. Place a tea light plug on each candle holder and fix it with Effekt Glue.

Use Ink Pads to carefully wipe over the edges of the wooden spools and wheels. Take a piece of string, wrap it around each manufactured candle holder and glue a small golden wooden star on the Ribbon . Cut the ends of the string to fit.

Extra crafting tip

VBS Effekt Glue is a gel-like adhesive which dries up absolutely transparent after some time and then fixes particularly well.

Must Have

[VBS Wooden spool, 5 x 5,5 cm](#)
