

# Christmas cards From Santa with love

Instructions No. 2858

🔪🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 1 hour

Isn't it nice to receive a **self-made letter** or **postcard**? Whether on a gift, sent by post or handed over by a loved one - everyone is happy about beautiful words and something homemade. This shows the recipient that he or she is worth a lot to you. With the 3D punching sheets you can easily create letters, postcards and envelopes with great motifs and impressive **3D effects**.

## This is how you create great cards and envelopes:

First choose a motif from the **3D punched sheets**. Then cut it out of the paper. Pay attention to the sequence of numbers next to the pictures!

First, cut out the picture with the number 1. This is the basis. Then separate the second picture and put some 3D adhesive pads on the back. Remove the protective foil. Now stick it on picture number 1, motif over motif. Do the same with the other pictures.

Now take a **card** and an **envelope**, as well as the **natural papers**. Glue a piece of natural paper to the card and the envelope with craft glue. When the glue is dry, stick the 3D motif onto the card.

You can stamp a message with the stamp set. Stamp it directly onto the card or onto a separate card and cut the lettering to size. You can also stick it on with **3D adhesive pads**.

### Article information:

Article number	Article name	Qty
21535	3D punched sheet set "From Santa with love"	1
19390	Stamp set XL "Christmas Wishes"	1
