Colourful wooden eggs with fire painting

Instructions No. 2165

Difficulty: Beginner

Working time: 1 hour

Egg, egg, egg what do I see there.... a great colourful pair of eggs! With a few simple steps you can make these great **dotted eggs**. With the **branding**, you can give the eggs an extra touch - a saying or a bunny's head make a great impression and look adorable. Decorate the eggs on the table, windowsill or shelf - I'm so egg-cited!

This is how the colourful eggs are made:

First colour the **flowers** according to your wishes. The best colour for this is **craft paint**. The flowers will later serve as stands for the eggs.

Now you can prime the eggs in white so that the colours you have applied come out beautifully. With the help of the embossing pens, you can now apply colourful **dots of different sizes**. You can let your imagination run wild here.

For the eggs with **branding**, first transfer the designs onto the eggs using graphite paper. Now you can easily burn in the motifs with the branding pen. To do this, first turn on your branding pen and wait about 5 minutes until it is completely heated.

After burning in the motifs, the eggs are also decorated with colourful dots.
