Country Style Cosmetic Bag

Instructions No. 968

In this bag all your cosmetic products find place. This beautiful fabric, in the current country house style design, you can thanks to a Stencil quickly change into this small bag. Versatile, you can design a whole collection of bags and the Stencil can also be used on Paper .

And it's as simple as this:

Plug the Stencil together. Sew the fabrics together according to your design wishes as shown in the picture. Press the seam allowances over. This gives your outer fabric. If you like, you can also use an appropriately large, single-coloured piece of fabric. Place the fabric layers on top of each other as follows: Outer fabric with the right side up Inner fabric with the right side down Volume fleece Stitch all layers together and turn them over. Place the Stencil and transfer the outline onto the fabric and cut roughly around the outline. Sew along the line and leave a turning opening on the side piece as shown in the illustration. Cut back the seam allowance in the turn opening to 1 cm and the rest to 0.5 cm. In the curve, snap the fabric with the scissors at a distance of 1 cm across the seam. Turn the sewing piece through the opening. Press the seams flat at low temperature and the seam allowance of the

turning opening to the inside. To close the side seams, lay the edges of the outer fabric right sides together and sew the side seam. This will automatically close the turning opening. Turn your finished bag over and sew on a button for closing. At the top, cover the button with a lace bow and the Ribbon of the fabric package, sewing it on with a decorative button.

Dear sewer, as fabrics are seasonal goods and we always want to have trendy fabrics in stock for you, it can happen that the sewn fabric is no longer in our range.

In our fabric section you will find a large selection of great fabrics. Click **here** to discover **all the fabrics**.
