Cute Easter bunnies made from modelling clay

Instructions No. 1741

Difficulty: Beginner

Working time: 20 Minutes

The cheeky self-modelled rabbits bring good mood into the home. They are certainly also a great souvenir for the Easter season. Enjoy this !

Kneadable concrete is a fine, very smooth and air-drying Modelling clay. material. It is supplied in powder form and is first mixed according to instructions. Afterwards it can be easily processed and is suitable for interior and exterior decoration.

To make the little bunnies**,** first form small balls and stretch them slightly. Then simply make a small cut in the tip of the modelled oval shape with an old knife. From this the rabbit ears are formed.

Let the rabbits dry out well (at least 24 hours). Then you can **paint** them to your own personal taste: snub nose, rabbit ears and panties. It is best to make several rabbits at once - as a group, the little guys look especially decorative!

Must Have

Creative Wrought Concrete, 1 kg

Air-drying
Weight: 1 kg

9,59 € (1 kg = 9,59 €)
~~RRP 10,45 €~~
