Deco ball bunny children

Instructions No. 2787

Difficulty: Beginner

Working time: 30 Minutes

Fascinating decorative balls can be quickly and easily DIY. Use this idea as inspiration for them or your own creations.

Acrylic ball "Floristry" is made of transparent material. Since it is divisible and has a large opening, it is very easy to decorate. If you want to design your arrangement only through the opening, it is recommended to fix both halves of the ball with a few drops of hot glue.

Coat the bottom inside the ball with some texture paste and now cover it with moss. The structure paste creates a standing surface for your decorations in the acrylic sphere. Dried, the moss will be glued to it. Continue decorating with small flowers and leaves. Secure the small decorative pieces with a little hot glue.

Position the decorative figures and fix them in place. Now you can easily pull a transparent hanging ribbon through the hanging eyelet on the acrylic ball. Finally, place a bow made of satin ribbons on the ball.
