

# Deko-Schild Home & Heart

Instructions No. 935

With this beautiful wooden board, and the romantic curlicues, a pleasant feeling immediately arises. Let your guests participate in your home feeling..

**And it's as simple as that:**

Print out the template of the font, cut it out and place the font on the board with adhesive tape. Slide the carbonless copy paper under the letters, draw them and transfer the writing. Now work out the writing with the branding paper. Afterwards you paint the whole board with Wood stain and let it dry. Fix the curlicue stamp on the acrylic block. Then stamp the squiggles and wipe the Ink Pads over the edges of the board. Use a fine brush to accentuate the letters and paint small gaps around the edge.
