Easter plotting on glass bottles

Instructions No. 3204

Difficulty: Beginner

Working time: 2 Hours

Easter is the perfect time to embellish your home with creative and personalized decorations. In this tutorial, I'll show you how to **decorate glass bottles with Easter motifs** and create a unique eye-catcher for your Easter table arrangement. With modern **plotter technology** and a little skill, you can easily create your own decorations. Let's go through this crafting process together step by step and find out how to design the Easter motifs with your plotter and conjure them up on the bottles.

Design creative glass bottles in an Easter design with a plotter

Create plotter files

Open Cricut Design Space

Start by opening Cricut Design Space and selecting the workspace. This is your creative canvas where the magic begins.

Design files

In the workspace, you can choose from a variety of designs under "Shapes". For an Easter flair, I opted for a bunny, a heart and an egg. Under "Text", you can add a personal message to complete your designs.

Set the motif size
To make sure your design fits perfectly on the bottle, measure the area you want to cover. Adjust the size of your motifs according to your measurements. Once all shapes and texts are ready, select them and click on "Connect" at the bottom right to group them for plotting.

Plotting
Go to "Produce" to start the plotting process. Follow the plotter instructions exactly. If your design is small, you can alternatively use the Cricut Joy, a compact plotter ideal for smaller designs.

Prepare the foil
Once the plotter has done its job, remove the excess film around your designs. Stick the transparent backing film onto your designs and lift them off the cutting mat with the film.

Painting and decorating bottles

Masking and painting bottles
Tape the bottles with crepe-adhesive tape to create clean edges. Use a dabbing brush to dab on the handicraft paint . To speed up the process, you can dry the paint with a hairdryer. Then carefully remove the masking tape.

Apply the motifs
Now apply the plotted motifs to the dried bottles. Position them as desired on the bottle to create a harmonious look.

Add additional decoration

Stamping tags and attaching ears
Stamp the tags as you wish. transfer the stencil for the ears to cardboard, cut them out and glue them together. Attach the finished ears to the back of the tags.

cord and tie a bow
Measure about 80 cm per bottle from the cord . Tie the cord to the tag and attach it to the back of the bottle. Bring the ends to the front and tie a decorative bow. Tie a knot at the ends and curl the hanging piece for a playful finish.

And voilà, you now have a beautiful, self-designed Easter glass bottle! This DIY-Project is not only only fun for creative minds, but also a wonderful way to add a personal touch to your Easter decorations. For all the materials you need, visit our online store and be inspired by our extensive range. Start your creative adventure today and bring Easter joy into your home!

Must Have
