Fabric fish

Instructions No. 3010

Difficulty: Beginner

Working time: 4 Hours

Bring a vacation atmosphere into your home. With the **self-sewn fish**, you can give your home a wonderful maritime look. With the **free pattern**, the fish are easy to sew, even for beginners.

This is how the fish are sewn:

transfer the **patterns** for each fish twice onto the **fabric**: transfer the first pattern as printed, the second must always be transferred mirror-inverted. Now draw a seam allowance of 1 cm on all parts. Then cut everything out.

Always sew two matching pieces of fabric together to create a fish. Press the seam allowance apart. Then sew on the **button eyes** by hand.

Two fish can now be sewn together. To do this, place two identical fish on top of each other, right sides facing and secure the Position the layers of fabric with pins. Sew the layers of fabric together along the seam allowance

except for a small turning opening. Cut small triangles into the seam allowance at the curves and corners. this will make it easier to turn and shape the sewn-together fish.

After turning, iron all the curves and corners into shape. Fill the fish with **wadding** and sew the turning opening together close to the edge by hand or with the sewing machine.

Now stitch the **hanging eyelets** in the top center of the seam. Pull the jute cord through.
