Farm animals from cardboard rolls

Instructions No. 1914

Difficulty: Beginner

Working time: 1 hour 30 Minutes

Old Mac Donald has a farm - you and your children **can easily and inexpensively** build your own farm. The **cardboard rolls** are versatile and can be used to create other **animals or** buildings besides our farm animals.

It's that easy

You need the following cardboard rolls for this handicraft

For the horse and the cow respectively
1x 15cm, 2x 10cm, 1x 5cm (half 10 cm roll)

For the pig
2x 10cm; 2x 5cm (half 10 cm roll)

Cut the **cardboard rolls** according to the instructions and then join the parts together. Now paint your animals in your **desired colours**. The best way to do this is Handicraft paint.

Cut the ears of the animals and the curly tail of the pig out of the remaining cardboard leftovers from the rolls, paint them as well and bring them with you Handicraft glue

Make the hair, mane and tail out of **wool** and fix them with glue. Prick **holes** for the eyes with a tingling needle and then put the eyes in

Finally, draw the faces with markers.

Must Have

VBS Cardboard roll set, 72 pieces

Size: 10 - 20 cm
Lignin-free
Acid-free
Content: 72 pieces
Diameter (outside): 4.2 cm
Thickness: 1 mm
