Fillable Easter Bunny from Styrofoam Egg

Instructions No. 2751

Difficulty: Beginner

Working time: 2 Hours

This **cute bunny** is a great eye-catcher for your Easter decoration and can also be filled with small items, sweets and gifts. It is also ideal as a gift for Easter. This Easter bunny is made from a **Styrofoam egg** and decorated with paint, foam rubber ears and feet as well as a pompom tail - very simple and ingenious for young and old!

This is how you make the cute bunny:

To give the bunny a secure stand, a **wooden ring** is glued under the lower half of the **styrofoam egg**.

The styrofoam egg halves were painted with antique green on the inside and grey **craft paint** on the outside. Several coats are needed for good coverage. Allow the paint to dry completely between each coat.

Print out the **free templates** and transfer the motifs onto the foam rubber. Now cut out the ears and feet. Glue the ear parts together with craft glue (or some hot glue).

Attach the legs to the sides of the lower part of the Styrofoam egg with hot glue. For the ears, use the scissors to cut small slits in the corresponding places of the styrofoam parts and stick the ears in with a little hot glue.

Paint the **wooden plates** for the eyes and nose with the markers and also attach them with craft glue or hot glue.

Wind a pompom for the rabbit's tail with the **pompom maker set**. The instructions for wrapping the pompom are included in the kit. Cut the pompom into shape and glue it to the bunny with a little hot glue.

Now you can decorate the bunny as you like. We filled our bunny with excelsior and sweets. Small gifts are also a nice filling idea.
