

Funny felted birds

Instructions No. 2143

Difficulty: Advanced 🦋🦋🦋🦋

Working time: 4 Hours

Aren't they funny, our little felted feather animals? They are just the thing for a spring decoration and not difficult to make. Children will also enjoy **felting** the **birds**.

This is how the birds are felted:

The high-yield **Mega-Filzer** liquid is applied directly to the wool or first mixed with cold or warm water (1:100). By gently rubbing and circling it in your hands, you can shape the wet felting.

For a **bird** you need to felt the following: 2 balls, as well as 2 small white ones as eyes and 2 black ones as pupils.

Also felt two wings from the **fairy wool**.

After drying, felt the individual parts together with the felting needle. To do this, prick several times in the places where two felt parts should stick together.

Paint the **clay pots** with the desired craft colours. Shape the feet and beaks out of chenille wire and glue them on with hot glue. Finally, put the hat on the funny birds.
