Glass and Zinc Lantern with Lace

Instructions No. 1007

Decorate this Wind light in romantic country house style wherever you like. Whether outside on the terrace, porch steps or in your own home, this Wind light with its zinc shell and lace details looks fantastic.

It's as simple as that:

Take the Wind light out of the bowl. Wipe over the zinc bowl with the white paint with the sponge and let it dry. Stick the tape-Ribbon to the top edge of the lantern and fix the tip on it. Make a loop from the Satin ribbon and fix it also with the tape-Ribbon on the tip. Now put the Wind light back into the bowl.
