

Glass organizers

Instructions No. 1012

These glasses are quite big as a small Organizer . Whether something is left over in the kitchen or the buttons are collected in the sewing box, these glasses are perfect for this purpose. If you also have a small collection, for example of hair ties and accessories, you can arrange them clearly and create a unique decoration.

And it's as simple as that:

See for yourself what is possible

- Stick colourful ribbons and lace with tape-Ribbon around the glasses. Wrap Jute-Yarn and fix the ends with hot glue.
- Mark the jars with chalk colours on the labels that are stuck on.
- Make the glasses permanent with stained glass.
- You can achieve a fantastic effect by Glass engraving.

Let your creativity run wild, adjust the glasses according to your needs and use - so you always have the right design.

Must Have
