Good Mood Cards

Instructions No. 1867

Difficulty: Beginner

Working time: 1 hour

The first warm sunrays are already back and with them the busy bees. They are not only cute, but also very useful. In addition to the cuteness effect, the English word "bee" offers a lot of possibilities for puns. Our cards are a good example of this.

For one bee

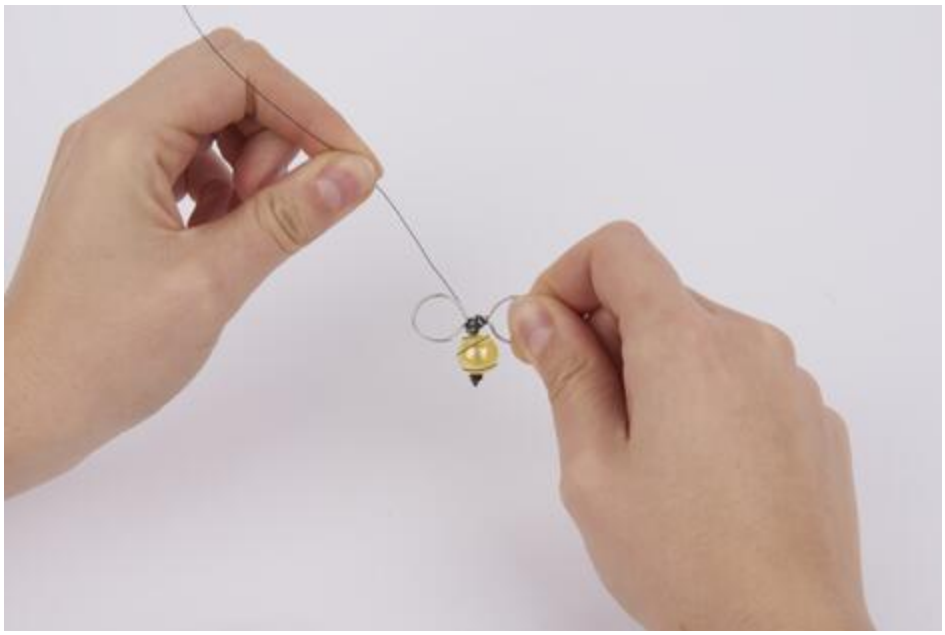

First cut a piece of aluminium wire about 15 cm long and form the two wings from the upper half. Thread a yellow one on the lower half, which will Pearl later represent the body of the bee. If necessary, you can shorten and bend the end of the wire slightly so that it cannot Pearl slide down. Cut a piece of black enamelled copper wire about 50 cm long and wrap it around the bee's "sting" at the bottom, then spiral it around the yellow one and finally Pearl around the wire between the wings as often as necessary to create another part of the body

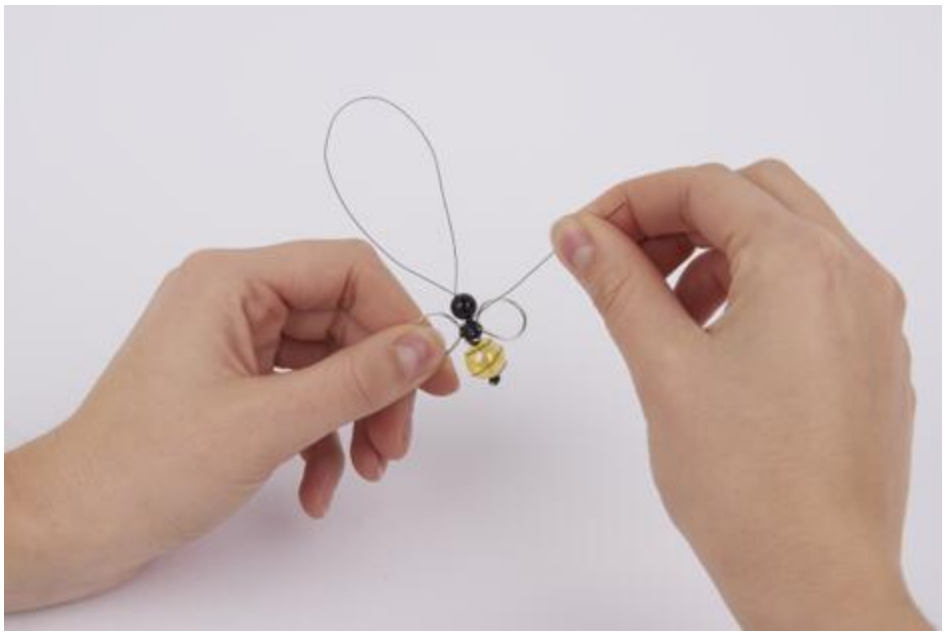

Thread a black glass wax bead on the black wire and thread the end of the wire back through the bead from top to bottom, leaving Pearl it above one loop Pearl . Now wrap the wire Pearl around the existing wire underneath the black one. Cut the loop of black wire in the middle and form the bee's feelers from the ends

Design the cards according to your wishes with markers. Funny sayings in the handlettering technique, as well as honeycombs and flowers are beautiful here. Once you are happy with your results, you can stick Handicraft glue the shaped bees on the cards.
