Good mood frogs

Instructions No. 3038

Difficulty: Beginner

Working time: 4 Hours

Be inspired by this idea and create funny frogs with paint! Frog Froggie and the two terracotta pot frogs are great for painting and crafting with children.

The VBS Frog "Froggi" is an unpainted plug-in figure made of plywood, consisting of 3 parts. First, enjoy painting the individual parts of the figure in bright colors. You can trace the face with a black touch-up pen.

Then use handicraft glue to glue the arms with the flower onto the frog's body, insert the frog into the base plate and fix it in place with a little glue handicraft glue.

Prime the terracotta-pots with May green paint and then add further color accents according to your personal taste. Draw on the faces with a black liner.

To make the arms, legs and eyes, print out the motif template and transfer the shapes for the eyelids, arms and legs twice for each frog onto green foam sheets. Cut out the shapes and then glue the arms and legs to the pots using hot glue.

Finally, only add the eyelids to the wobbly eyes and then glue them to the pots.
