Hares from cardboard rolls

Instructions No. 1877

Difficulty: Beginner

Working time: 1 hour

These rabbits are not only super cute, but also can be conjured up quickly with little effort. They can be perfectly placed on the windowsill, a chest of drawers or on the Easter table as an eye-catcher. The tinkering can also be easily done by children.

Gradually provide the **cardboard rolls** with **Handicraft glue** and wrap them with the **wool thread** until the whole roll is covered. Then print out the **template for** the ears and feet, transfer the designs to the **Kraft paper** and cut out everything. The ears and feet are also **Handicraft glue** and wrapped with the **thread**

Fasten the feet and ears with **Handicraft glue** on your body and stick a pompom on the back as a flower. Cut off three pieces of from **wire** about 10 cm long, take them together in the middle (twist them once if necessary) and fix them as whiskers with **Handicraft glue**. Finally, **Pearl eyes** and nose are designed with the pen.

Must Have

VBS Cardboard rolls

Lignin-free
Acid-free
Content: 24 pieces
Height: 10 cm
Thickness: 1 mm
Material: Cardboard

7,99 €
