Houses Lightscape

Instructions No. 3105

Difficulty: Beginner

Working time: 8 Hours

Create **your own magical winter or Christmas world!** The decorative **miniature houses** and matching **church** together form an idyllic, snow-covered village. Lovingly designed and arranged with fir trees in your home, they transform your home into a winter wonderland.

It's as simple as that:

All three **houses** and the **church** are different wooden kits made of high-quality plywood, which are supplied with lighting. Lay out the individual parts so that you can easily assemble each kit into a house or church later.

Now paint the individual wooden parts with a fine brush. For our idea, we used **handicraft paint** in fig, pastel- olive green, powder, stone grey and gold . However, each house can also be designed individually.

Attach the small lights from the supplied lighting to each base plate. Then stick all the other parts of the respective house or church together. Apply handicraft glue to the joints. This will hold everything together firmly.

Glue two **tree discs** together with hot glue and then place the church and one of your little houses on top. Decorate the floor, fences and roof gables with wintry **decorative snow**.

Finally, arrange all the little houses together with miniature **fir trees** to create a small winter village. You are welcome to use other decorative accessories for this: Decorative snow, small jingles, star-scatter decoration or other miniatures. Just switch on the lights and enjoy!

★★★★★ (3)

VBS Wooden building kit "Landscape of lights with houses", incl. lighting

Number of parts: 28; Number of lamps: 3; Diameter (outside): 15.5 cm; Height: 13 cm; Material: Plywood
