Working time: 45 Minutes

Treat yourself to cosiness in home and garden

The wooden tray lovingly designed with motif straw silk, the lanterns and the beautiful flower vase are great creative ideas that can be made with a lot of fun

Romantic wooden tray

For the priming of **the** wooden tray, Handicraft paint in antique white is mixed with a lot of water and then applied over the surface. While the primer dries, individual picture elements are cut out of the motif straw silk

Position the motif parts before sticking them on the dried tray and stick each part of the **motif straw silk** to the tray using decoupage glue and a soft brush. Any excess paper can be easily cut off with a scalpel

As a special feature, the wooden tray was finished off at the edge with **Leaf metal** ornamented. For this purpose, Gold leaf priming milk will be applied first. After approx. 15 minutes Leaf metal is laid on the painted surfaces with a soft brush. After some time, excess metal particles can be "wiped off" with a Bristle brushes .

Small cosy lanterns

The small trendy grooved lights are first **dabbed** with glass-effect gel. As soon as the paint has dried, the jars are decorated with straw silk shreds and porcelain pens or with Leaf metal further

Stylish flower vase with grooves

On the glass vase with grooves, color is applied with a sponge glass design color. The great wipe look on the vase is created by first priming all surfaces in green colour and then dabbing and wiping in the still moist antique white colour.

After drying, the floor and approx. 2 cm of the lower edge of the vase are painted with a covering ceramic effect. For this, draw the edge with the Strich-Ex pencil. This has the advantage that the Ink disappears completely after a while.

Finally, decorate the vase with soft pink **Lace ribbon.** Simply coat the neck of the vase with double-sided Adhesive tape and press the tip onto it

Order at the same time: Our online shop also offers many decorative **artificial flowers** and **LED tea lights** for your finish
