Keep Out - Miniature Scary House

Instructions No. 2651

Difficulty: Beginner

Working time: 2 Hours

Halloween is coming and with it the scary decoration ideas. With this spooky miniature house of horrors, you have the ideal decoration for Halloween.

To make the cot look scary, dark and "dirty", first paint the cot lightly with the black paint. For the "blood" that is on the miniature tools and the shovel, take the red colour and paint them with the colour as desired.

Next, create the grave in the bottom left corner with texture paste. The shovel is then placed on top of it. During the drying time, it should be leaned against something so that everything holds. After the drying time, this is also painted with black paint.

Now break the wooden sticks with a side cutter. Then paint them in places with black and red so that it looks dirty and bloody. Then glue the wooden sticks to the cot with hot glue as shown. Then they can be labelled with the

words "KEEP OUT". The tools are now tied to the anchor chain with a piece of yarn.

Finally, all you have to do is decorate the spooky house with the fairy tale wool (fog, spider webs) and your Halloween decoration is ready.

Must Have

VBS "Tabgha" nursery

Length: 23 cm
