

# Lavendelseife zum Verschenken

Instructions No. 2511

🔪🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 3 Hours

You are looking for a nice gift idea or want relaxing hours in your personal lavender wellness oasis? Then this creative idea is just right for you!

## Craft lavender soap!

Per bar of soap you need 60 g of eco-pouring soap. Heat this in a melting pot or alternatively in a water bath. Add soap color to taste for coloring and add a few drops of fragrance oil to the liquid soap. Then fill the soap into the mold. For the soap with dried lavender, sprinkle the flowers immediately on the still liquid soap.

After drying, you can remove the soap from the mold and wrap it decoratively.

## You prefer soap from the dispenser?

Our soap base gel "Hair & Body" is a great 100% vegan base for your own liquid soap. Mix the gel as desired with soap color and fragrance oil and fill it into the pump bottle. You will need about 300 ml for one VBS pump bottle.

To decorate the pump bottles, cut out matching motifs from the straw silk and glue them onto the bottles: here, coat the back of the paper with napkin varnish and position it on the bottle. Then coat the glued motif again with napkin varnish (protective seal).

## Gift boxes with self cast decorations

With the help of straw silk, laser cut motifs and , lavender bouquets, it is fun to create lovingly decorated gift boxes for the soaps from plain cardboard boxes.

However, the special something about the boxes in our idea are the self-cast decorative elements that can be glued on the box lids or even in the boxes perfectly match the soap gift.

### How to make the castings:

Mix the Keraflott ceramic powder with the help of the product instructions and color the mass with color concentrate. Our basic instructions Casting Design No. 1552 also give you a lot of information about the technique. Pour the mass into the casting mold "Lavendelliebe".

After about 20 minutes, the castings are dry enough to be removed from the mold. Wipe some ink onto the casting reliefs with the ink pad and then glue them to the box lids using hot glue.

Place straw silk in the boxes and finally arrange your self-poured soaps and the decorative elements in them.

We hope you enjoy creating, gifting and pampering!

### Article information:

Article number	Article name	Qty
17841	Scrapbook block "Provence"	1
