Lighthouse table decoration

Instructions No. 3303

Difficulty: Beginner

Working time: 2 Hours

Dreaming of a touch of the sea in your home? Use this idea as inspiration to create a table decoration with a maritime look. The self-made work of art will add a coastal flair to your home.

Paint

Paint the lighthouse and the tealight holders in maritime colors according to your personal taste. For our idea, we used the colors blue-green, beige and sea green.

To give your lighthouse a characteristic coat of paint, mask off the areas where you want the stripes to appear with

masking tape. This adhesive tape helps you to keep clean edges. Then apply the desired color. Once the paint has dried, carefully remove the masking tape - and voilà: perfect stripes just like on real lighthouses!

Decorate
Use hot glue to stick small maritime wooden decorations to driftwood. The driftwood provides a great contrast to the colored elements.

Arrange everything on and next to a zinc bowl in your home. Sprinkle the bottom of the bowl with shell granules. The granules enhance the beach atmosphere and make the entire arrangement appear more lively. Alternatively, decorate everything in a tray instead of a zinc bowl.

You can find the materials you need for this beautiful maritime decoration in our online store. Create your own individual coastal paradise and bring a breath of fresh air into your home. We look forward to helping you!

Must Have

VBS Lighthouse "Haven Light"

Diameter (outside): 10 cm
Height: 28 cm
Material: MDF wood, Metal, Plastic

12,95 €
