Macramé Picture Frame

Instructions No. 2424

Difficulty: Advanced

Working time: 2 Hours

Many impressive things can be knotted with the macramé technique, including these decorative picture frames. The picture frames were made with different knots and put pictures of the last trip or of your loved ones absolutely in the limelight.
With our instructions and practical step photos of the individual knots, you too can make a macramé picture frame.

First of all, you need 8 x 1 m long macramé yarn cuttings for each picture frame, as well as a round stick. You can also use our template with the different macramé knots and the corresponding step pictures. You can find more knots in our **macramé basic instructions**.

Row 3-5: Cross knot

For beautiful knotting patterns you can use the staggered square knot.
