Working time: 2 Hours

Discover your creative streak with fascinating marbling techniques! Marbled shapes add a touch of elegance to your home and make excellent decorative eye-catchers. In these step-by-step instructions, we'll show you how to create impressive works of art using casting compound and colours for marbling. Ready for your DIY adventure?

castings and the typical, unique colour patterns will be created. Allow the objects to dry thoroughly.

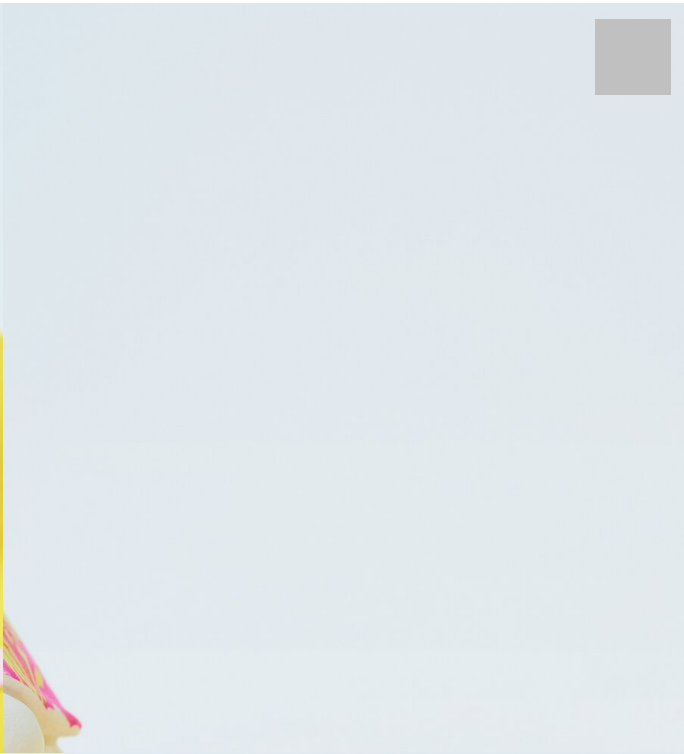

8. Remove colour residues

To remove paint residue from the surface of the water, simply drag a piece of paper through the water. This creates space for

the next pattern, which you can design with new drops of colour.

With a little patience and creativity, you can create spectacular works of art in this way. Here and in our online shop, you will not only find paint but also many moulds for casting and ready-made objects for marbling. Get started today and let your imagination run wild!
