Mural Snowy Winter

Instructions No. 2659

Difficulty: Beginner

Working time: 3 Hours

You are still looking for a mural as a highlight in your home, preferably something unique self-made? Treat yourself to a creative time out and paint on stretcher frame!

Planning the image arrangement

First, lay the two 40 x 40 cm stretcher frames next to each other - with a slight gap, as they will later be arranged in the final.

Lightly draw circles of different sizes with a pencil as you like. You can use household items such as plates, glasses, rolls of tape as an aid for this.

Painting circles

The circles are now stippled round by round from the outside to the inside:

First, on a painting palette, place a dab of paint in turquoise or in lavender and next to it a dab of white paint (do not mix!) Dip the brush loosely into the paint so that some of both colors is absorbed. Then place dabs next to each other until you reach the center of each circle.

Once you have filled all of the circles with the dabs of paint, use the Dot Painting Sticks to place black dots outside of these circles. Now your finished work of art just needs to dry.

We wish you a lot of fun and relaxation while painting!
