Natural Advent wreath

Instructions No. 2874

Difficulty: Beginner

Working time: 2 Hours

Advent wreaths are indispensable at Christmas time. They are decorative and at the same time provide a cosy light in the dark season. In our instructions, we explain how you can create this natural Advent wreath with little effort.

Design a natural Advent wreath

First paint the **Topeca plate** with **handicraft paint**. We have chosen the color pastel-olive here. Leave the paint to dry. Apply a second coat of paint if necessary. Once dry, coat with the **VBS acrylic paint** and also leave to dry thoroughly.

In the meantime, fill the **glass bottles** with **Iceland moss** and insert the **VBS kandelaar "Moora"** into the opening of the bottle.

Tie a **jute cord** around the neck of each bottle and attach the **VBS scatter decoration "Oakley"** to it with a little **hot glue** as desired.

Cover the **kandelaar** with **sticky wax** and place the **stick candles** inside.

Place the finished bottles on the plate and decorate with a few **cones** and **other sprinkles**.
