

Perlenstern Idee und Anleitung für zarte Frühlingsblumen und Schmetterlinge

Instructions No. 1093

Pearl Stars are delicate spring decorations and with their pretty appearance they will spread a magical feel-good ambience in your home.

And it's that easy:

Pearl Stars tinkering is very easy

In the handicraft set "Pearl Stars" are beside the wire stars also already pearls contained. The flower and the butterfly of this idea are therefore put together as described in the crafting instructions of the set "Blossoms" and the set "Butterfly".

For the pearl flower, simply pull together 5 leaves of the ribbon "Ziehblume" to form a flower. The flower is secured by knotting the thread. Four contracted petals of the ribbon "Ziehblume" (=drawn flower) form the wings of the butterfly

With the help of the thread, a pearl butterfly or a pearl flower is tied on each ribbon flower. The fabric flowers

can now be arranged under the pearl strands as butterfly wings or petals. If you want to hang the butterflies and flowers on the Easter shrub or in a spring arrangement, only must attach a hanging ribbon to the pearl decoration.
