Punch Needle Smartphone Tasche

Instructions No. 1909

Difficulty: Advanced

Working time: 2 Hours

The pretty mobile phone bag is very quickly self-sewn. With the Punch Needle image embroidery you can design your own pattern on the fabric.

The mobile phone bag measures approx. 17.5 x 12 cm. So you **need** two Fabric cuts of this size with 1 cm seam allowance each Aida fabric and a matching piece of endless zipper from **.** The first step is to sew it to the fabric with the zipper presser foot

With the **Strich-Ex pencil** any pattern can be painted on the back of the Aida fabric. With this idea, the punch needling is now started and embroidered from the back side. The finished areas should be repeatedly embroidered with **Textile glue** can be fixed and thus secured.

From the **Nettle fabric** now loops for the holding cord are sewn: Two blanks of 4 x 4 cm with a seam allowance of 1 cm are folded once each, the longer side is sewn shut. The resulting Nettle fabric loops are now Nettle fabric sewn to the seam

Baste the **Aida fabric** and Nettle fabric in the size of the mobile phone pocket together and sew both together. Turn the bag over, attach the Nettle fabric-loops to the **Cord** knotted.
