Baking cakes made easy

Preparation

Pee the pears, grate them over a kitchen grater and mix the crushed pulp with lemon juice. This gives the pears a pleasant, slightly acidic flavour and prevents them from turning brown (oxidation).

Preheat the oven to 180°C.

Make dough

Mix all dry ingredients in a bowl: Flour, baking powder, Cinnamon, cookie crumbs and brown sugar. Add milk, eggs and melted butter and mix well to a creamy dough. Add the chocolate drops and the pears to the dough.

Fill the dough into the greased or parchment-lined box cake tin.

For the cake crust, first sprinkle the two pears with lemon juice. Place them on the cake. Mix the cookie crumbs with brown sugar and pour this mixture as a crumb layer on the cake. Finally spread small pieces of butter on the cake.
