

# Redesign terracotta pots with concrete colour

Instructions No. 3289

Difficulty: Beginner

Working time: 2 Hours

Would you like to give free rein to your creativity and add a touch of individual charm to your home at the same time? These step-by-step instructions will show you how to create unique decorations using your choice of watering cans and painted terracotta pots. Whether you opt for hearts, stars, flowers or other shapes - these stylish DIY projects are real eye-catchers. So, grab your materials and let's get started!

### Step 3: Demold the Molds

Once the VBS Beton Color on the pots has dried, you can remove the molds. Thanks to the flexible mold, they can be easily released without damage.

#### Step 4: Decorate the Molds

Embellish the molds as you wish before gluing them. Use the sponge stipple brush and the Chalky Color "Antique White" or any other color of your choice to decorate the molds. Allow them to dry afterward. Tip: You can speed up the drying process with a hairdryer.

#### Step 5: Glue the Molds

Use the transparent Effect Glue to affix the molds to the terracotta pots. Apply some glue and position the molds where you desire. Then wrap the jute twine around the pots and make a knot or bow. Secure the end of the twine with glue as well. Allow everything to dry for up to 24 hours so the molds adhere firmly.

Now that you know the creative process for making individual molds and painted terracotta pots, you can start creating decorations that brighten up your home. Conveniently order the necessary materials from our online shop and get ready for your next creative project. Have fun crafting, and good luck!
