Rustic decoration from bark slices

Instructions No. 659

Decorations in the Nature-look are totally in. The large rustic bark slices are wonderfully suitable for decoration with different techniques.

Here's **how it works**

For the variant with **Napkin technique** cut the motifs to fit the bark slices and stick on the printed paper layer with Napkin varnish After drying, you can cut back the remaining Paper if necessary. A nice combination is the Pearl-Pen with which you can trace individual areas or emphasize them with shimmering beads.

Alternatively, you can **stamp** the slices of bark **and** add the tendrils with the Pearl-Pen or trace with the fine tip of the **firing station** . Now wipe stamping ink with a paper towel or directly with the Ink Pads via the Wooden discs and balls as well as the designed bark discs and cover all wooden parts with two layers Napkin varnish. Then drill a hole each into the bark discs at the top and bottom.

For the suspension of each bark disc, make a tassel from Jute yarn and thread various Wooden balls and discs on it. Afterwards only still through the holes in the bark disks thread and finished is a beautiful decoration in the Nature-Look.
