

Rustikaler Tannenkranz

Instructions No. 937

A rustic-looking wreath that is guaranteed to accompany you through the winter months. Its design and texture are ideal for your entrance door. Snow and Ice would even give this door wreath that certain something.

And it's that easy:

Spread the wreath with decorative snow and let it dry. Cut the tapes from the Jingles and thread the Jingles on wire sections, which you fix all around the wreath. Remove the Ribbon from the bells and tie them into the wreath with a piece of checked ribbon. From the rest of the protruding check ribbon you make a hanging loop. Now wrap the check ribbon loosely around the wreath and finish with a loop at the suspension.
