Decoration idea with spring flowers - how do I proceed?

Take a brush and prime the terracotta pots with white paint. Cut the sticky material to size and fill the terracotta pots with it. Completely cover the sticky material with moss and fix it with a few Roman stickers. Afterwards you can place the flower picks in the desired arrangement in the stick mass. The moss should fit nicely around the flowers.

How do I give the flower pots that certain something?

Make small loops from white Satin ribbon - one for each pot. Now make the colourful ribbons into large bows and fix a small satin bow with a large colourful bow together at the top of the flower pots. The best way to do this is to use double-sided adhesive tape-Ribbon.
