

Summery metal ring

Instructions No. 1962

Difficulty: Beginner 

Working time: 30 Minutes

In summer, fresh and bright colours ensure a good mood. This summery decoration with metal ring is the perfect eye-catcher in your own four walls. The metal ring also cuts a fine figure on the front door as a door wreath and welcomes your guests in style.

It's as simple as that:

Start by **wrapping** the **metal ring** with two different jute cords. The ends can easily be **fixed** with some **hot glue**. Alternatively, other and more colours than in our example are possible

The **lettering "Summer"** is also **fixed to the ring** with hot glue. Arrange the individual **leaves and Embellishment** and fix them with **glue**

At the end there is a **Ribbon** attached as a suspension

If you like you can also **Cord** at the bottom by tying one Ribbon at the bottom of the ring. You can **attach** or thread **further Embellishment** beads or beads to this ring as you wish. Or how about a **small sign** with the names of your family?
