Tea light holder Deer in the Forest

Instructions No. 2354

Difficulty: Beginner

Working time: 1 hour

Create this decorative tea light holder. It is made of wood and can be painted with colours. In our decoration example, we have given the tea light holder impressive accents with metal leaf. Since the tea light holder is equipped with four candles, it can also be used perfectly as an Advent arrangement.

1. Paint the sides of the plate with Easy Rust Paste in rust brown and allow to dry.

2. Accentuate with Easy Rust Paste in rust red and let the paint dry completely.

3. Now apply the investment milk in places, let it dry and put on the leaf metal. Smooth out with a brush and remove any residue. Then apply the topcoat.

4. Repeat this process on some firs. In this case, however, apply the coating milk over the entire surface in order to finish the firs completely with the metal leaf.

5. Paint the remaining firs with dark green craft paint. Allow the paint to dry.

6. As a final touch, fix some clamps with hot glue.

Find out how easy it is to use leaf metal in our illustrative video:

Must Have

VBS tealight holder "Deer in the forest"

Length: 39 cm
Width: 7.5 cm
Height: 15 cm
Material: MDF wood, Metal, Plywood
