VBS Creative Set "Butterfly Girl"

Instructions No. 2388

Difficulty: Beginner

Working time: 3 Hours

The charming butterfly girls are an eye-catcher. They can be made in no time at all. Perfect for craft afternoons together and for crafting with children.
They have a size of approx. 12 cm with antennae.

How to make the cute butterfly girls:

First design the **figure cone** according to your wishes with **craft paint** and let the paint dry completely.

Now glue the wooden ball onto the wooden figure so that the hole faces upwards. Paint the hair and the face on the wooden ball.

Example of a magical face:

Shape the antennae from a piece of **wire** and glue them into the hole of the wooden ball. Then close the hole with a **pompom**. This now represents the hair bun.

Place the **wing template** under the sheet of **transparent paper**. This way you can easily transfer the five wings you need. Cut out the wings and glue them to the figure from behind.

A piece of **ribbon** knotted around the waist gives the butterfly girl the final touch.
