

Vogelhaus mit Gravierungen

Instructions No. 1944

🔪🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 1 hour

Springtime is also **bird time!** Already in the morning you will be greeted by from beautiful birdsong. Our idea shows you how to create a beautiful decorative bird house **with** an engraving pencil. The cottage is a decorative eye-catcher and can be beautifully decorated on a windowsill, chest of drawers or table.

This is how you engrave the box:

Lightly flame the roof with the **Bunsen burner** to give it a brown colour. Alternatively you can also paint the roof with brown **Handicraft paint** and set accents with dark brown colour. We have painted the rest of the house in our example with **VBS Handicraft paint Blue-Painted green** and white. Of course all other colours are possible

Print out the template and transfer it with **carbon paper**. You can also use your own designs and transfer them in the same way

Now draw the lines of the motif with the **engraving pen**. It is recommended to clean the milling head in between. As soon as you are satisfied with your result, the complete bird house will be **painted** with weatherproof impregnation

Glue the bird house with hot glue on a tree disc. Finally, you can decorate your bird house with Iceland moss, **flowers and birds as you wish**.
