Wall mural featuring " acrylic-" water technology

Instructions No. 4137

Difficulty: Beginner

Working time: 30 Minutes

With acrylic painting, you can quickly create an expressive, one-of-a-kind piece on a stretched canvas. Flowing color gradients and vibrant splashes create modern, abstract looks that even beginners can achieve. You can use them to spruce up walls, create small series of paintings, or design a personalized gift. The result is art that perfectly matches your style and color palette.

1) Preparation

Cover your work surface well to avoid making a mess. Also, have your supplies ready in advance.

2) Diluting acrylic paint

Mix acrylic paint and water together in the squeeze bottle. Be careful not to use too much water, otherwise the paint won't be as vibrant anymore. Repeat this for the different colors of your choice so that you end up with one color per bottle.

3) Apply paint to the stretched canvas

Now you can squeeze the colors from the squeeze bottles onto the stretched canvas and blend the different colors together with a brush or your fingers. This creates harmonious transitions and exciting color gradients.

4) Let it dry
Then let everything dry thoroughly before hanging your new masterpiece or working on it further.

Now it's your turn! Find more paints and materials for your next artwork in our online shop, or get inspired by our many ideas and tutorials!

Must Have

VBS Stretched canvas "Linen", 20 x 20 cm

Grammage: 500 g/m²
